

## **Peer Review of Million Araya's Presentation**

by Austin Djang

The presentation was very informative, succinct, and had a clear focus. I thought it was very well structured, with a good balance between visual aids and explanatory text. Each slide featured excellent visual aids, as well as captions to the visuals.

The presenter did a great job, especially considering the fact that he is not quite fluent in English yet. He remained composed and under control. He was clearly prepared, and he remained engaging and made eye contact with the audience.
